

“We Are Army Strong” United States Army Astronauts Patch

Inspired by the camaraderie of the Armed Services and in response to the other service patches, One Giant Leap asked patch artist Tim Gagnon of Titusville, FL to create a U.S. Army Astronauts patch in tribute to those men and women who have flown in space.

This fully embroidered 4.25 inch patch is stunning with an olive green border and camo pattern border. The Shuttle and the ISS are depicted as these are the two programs Army Astronauts flew. The stars represent each Army Astronaut. In addition the Hubble Telescope represents the contribution of Nancy Currie during mission STS-109. The astronaut flying the MMU pays tribute to Robert Stewart who was the first Army Astronaut to fly, the second man to fly the MMU during mission STS-41B in 1984 and who retired as a Brigadier General in 1992. His star is a five pointed star.

The patch is a limited edition fundraiser for One Giant Leap, Inc. and is \$20.00

Shipping is additional via USPS Priority Mail. Domestic add \$5.50 International add \$10.00

I accept Paypal.

Please print and send in this form along with your purchase order to:
