

## COMMEMORATING THE APOLLO MOON PROGRAM

**Tim Gagnon**, portrait and graphic artist of Titusville, FL announces the release of this commemorative design the 6<sup>th</sup> in his series: "Celebrating 50 Years of America in Space."

In 1961 President Kennedy challenged this country "before this decade is out – to put a man on the Moon and return him safely to Earth." This mobilized a nationwide effort involving hundreds of thousands of people which culminated in the summer of 1969 when the crew of Apollo 11 landed on the Sea of Tranquility. Five more landings of growing complexity were accomplished over the next three years and in December of 1972 the last footprints of the 20<sup>th</sup> century were left on the lunar surface.

This will be 12" in diameter partially embroidered patch. The black area is twill material to allow the mission art to be displayed as prominently as possible.
