

COMMEMORATING THE X-15

Tim Gagnon, portrait and graphic artist of Titusville, FL has created this commemorative design to honor the men who first flew a winged rocket ship to the edge of space. This will be an 6" wide patch fully embroidered patch.

The central theme of the design is the launch of the X-15 from its carrier aircraft. It flies to where the sky turns black. The twelve men who piloted the X-15 are listed in the order by which they made their first flight. The twelve stars in the sky represent the branch of service of the pilots. The six white stars are for the civilians, five silver stars for the USAF pilots and 1 gold star for the US Navy pilot.

If interested, please complete the order form below & return with payment (U.S. funds only).
